Responsive Design

/page/index.html

Home page

When “LET’S DIVE IN!” or Search button clicked, site brings user to /page/productSearch.html

Clicking the human-shaped button on the upper right will give user a link to the sign-in or sign-up page.

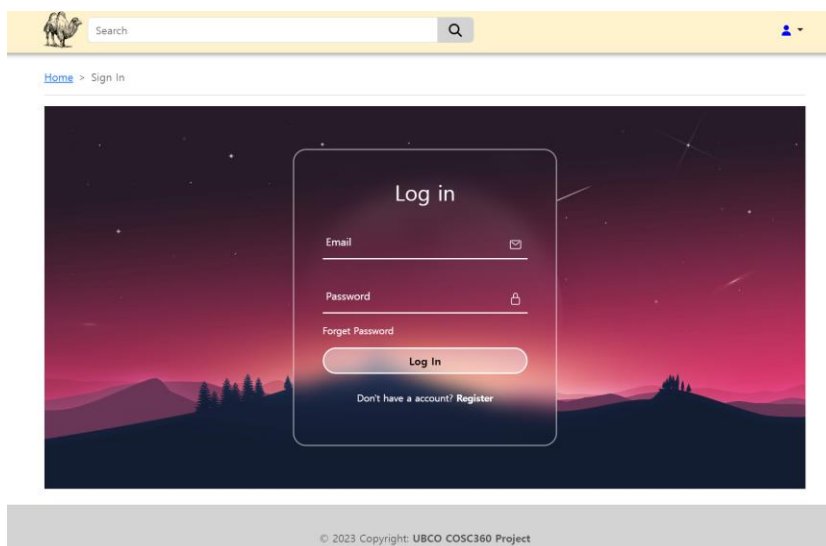

/page/login.html

Sign in page

When user sign in, site brings user /page/productSearch.html.

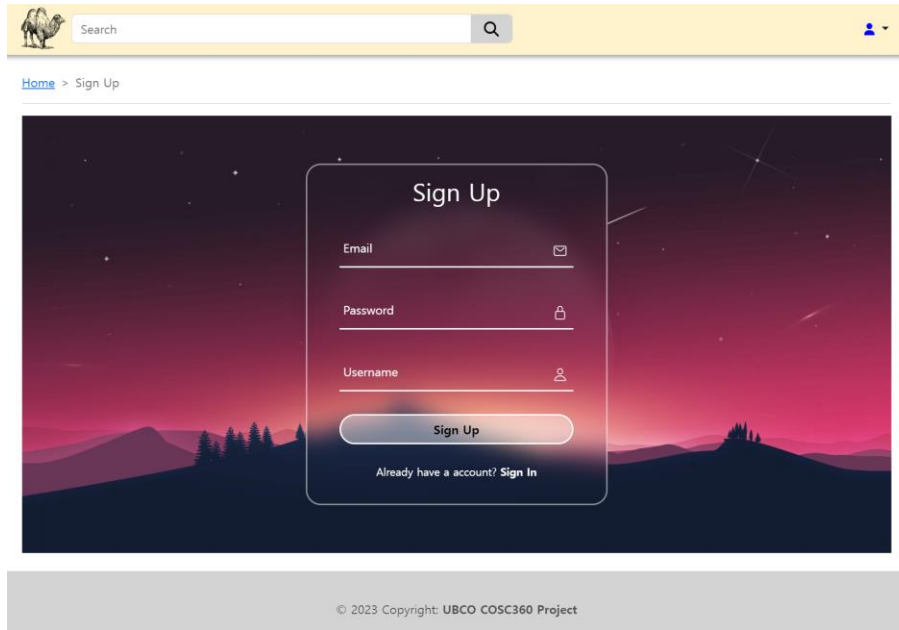

User can go to sign-up page clicking “Register” and go to /page/lost.html clicking “Forgot Password”.

/page/singup.html

Sign up page

Clicking “Sign In” will bring user to sign-in page

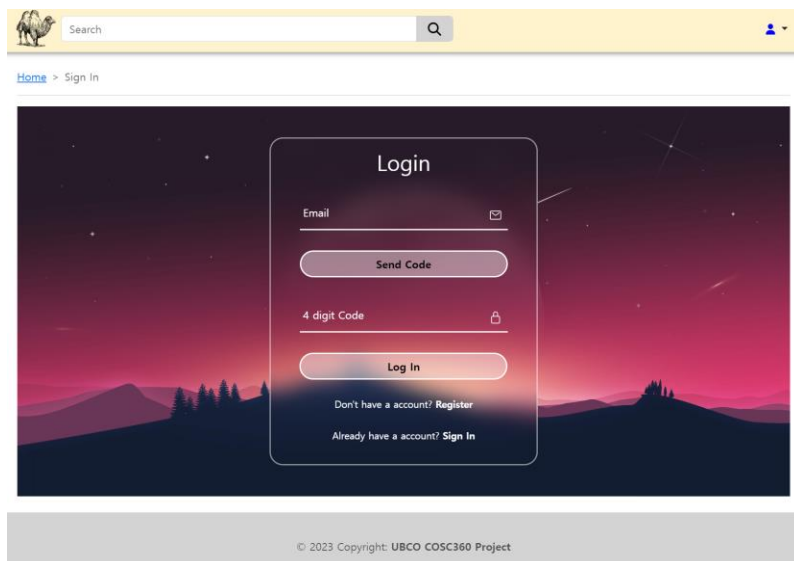

The screenshot shows a web application interface. At the top, there is a yellow header bar containing a search bar with a magnifying glass icon and a user profile icon. Below the header, a breadcrumb trail reads "Home > Sign Up". The main content area features a dark, atmospheric background with a silhouette of a landscape and a starry sky. Centered on this background is a white, rounded rectangular form titled "Sign Up". The form contains three input fields: "Email" with an envelope icon, "Password" with a lock icon, and "Username" with a person icon. Below these fields is a "Sign Up" button. At the bottom of the form, there is a link that says "Already have an account? Sign In". The footer of the page is a grey bar with the text "© 2023 Copyright: UBCO COSC360 Project".

/page/lost.html

Page for when user lost password

If user input valid email, it will send code to user and when user type that code, it will make user be able to sign in. Then, user can update password at profile page.

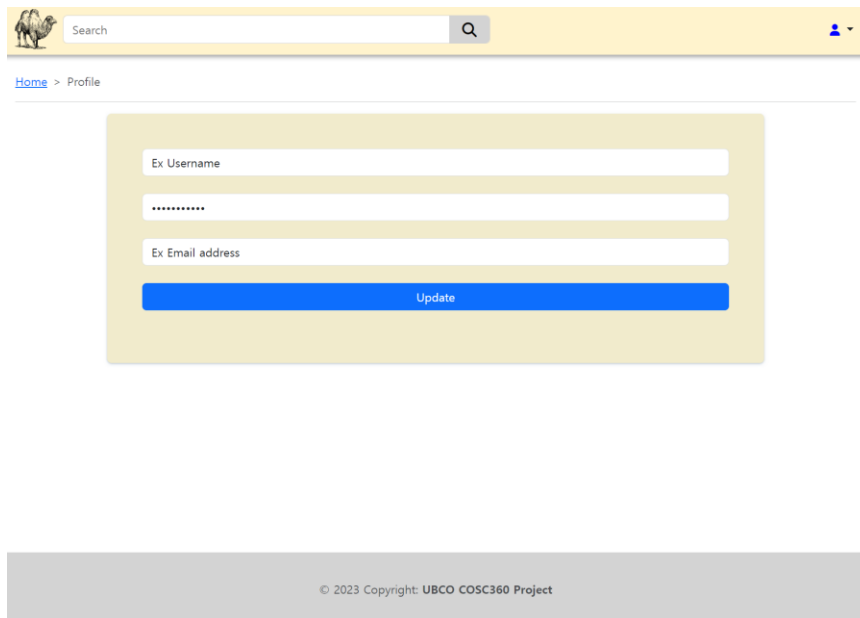

The screenshot shows a web application interface. At the top, there is a yellow header bar containing a search bar with a magnifying glass icon and a user profile icon. Below the header, a breadcrumb trail reads "Home > Sign In". The main content area features a dark, atmospheric background with a silhouette of a landscape and a starry sky. Centered on this background is a white, rounded rectangular form titled "Login". The form contains an "Email" input field with an envelope icon, followed by a "Send Code" button. Below this is a "4 digit Code" input field with a lock icon, followed by a "Log In" button. At the bottom of the form, there are two links: "Don't have an account? Register" and "Already have an account? Sign In". The footer of the page is a grey bar with the text "© 2023 Copyright: UBCO COSC360 Project".

/page/profile.html

Profile page

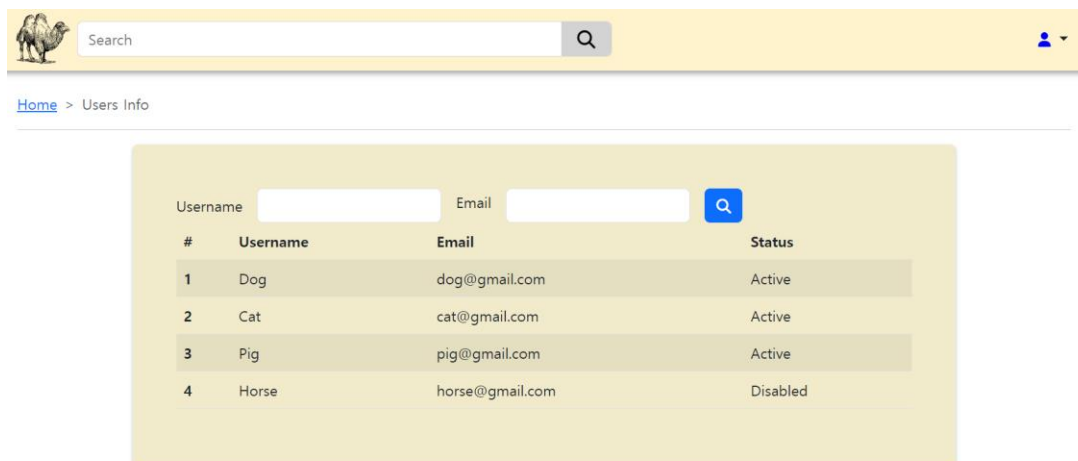

Users can see their current username and email and change their username, email and password. Clicking the human-shaped button on the upper right will give profile page link once user signed in. (This should implement with server side)

The profile page features a yellow header with a camel icon, a search bar, and a user profile icon. Below the header is a breadcrumb trail: [Home](#) > [Profile](#). The main content area is a yellow box containing a form with three input fields: 'Ex Username', a password field (indicated by dots), and 'Ex Email address'. A blue 'Update' button is at the bottom of the form. The footer is a grey bar with the text: © 2023 Copyright: UBCO COSC360 Project

/page/users.html

Page for administer to manage users. Will be made to be updated status by click. Clicking the human-shaped button on the upper right will give profile page link once administer signed in. (This should implement with server side)

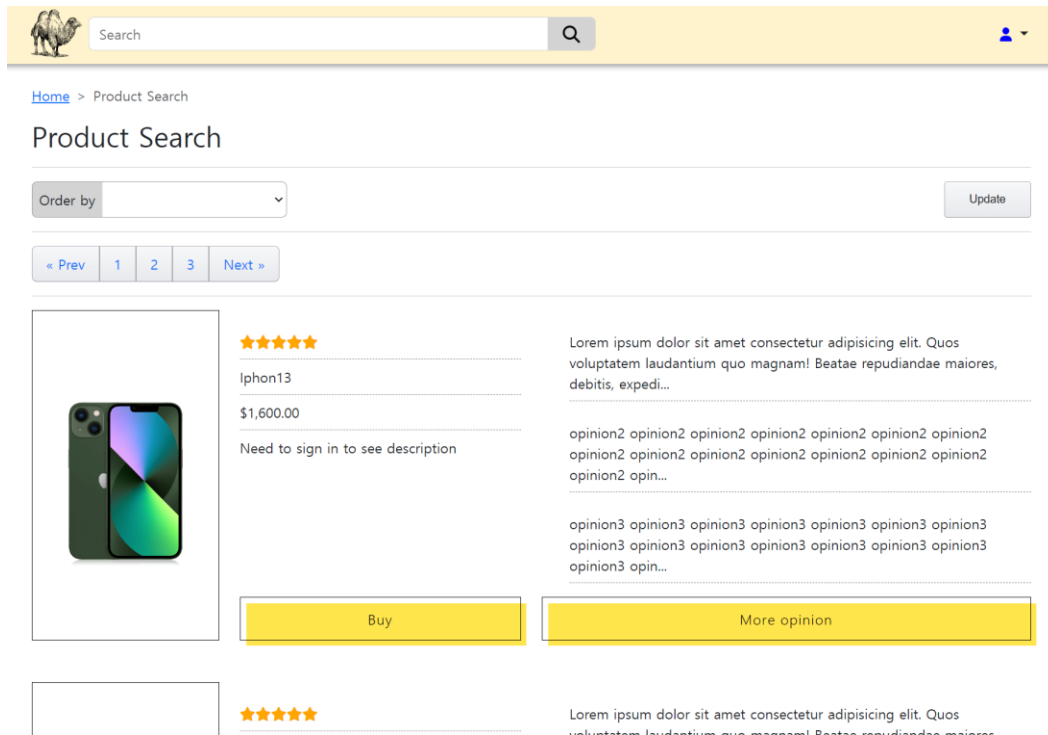

The users page features a yellow header with a camel icon, a search bar, and a user profile icon. Below the header is a breadcrumb trail: [Home](#) > [Users Info](#). The main content area is a yellow box containing a search form with 'Username' and 'Email' input fields and a blue search button. Below the search form is a table with four columns: '#', 'Username', 'Email', and 'Status'. The table contains four rows of user data.

#	Username	Email	Status
1	Dog	dog@gmail.com	Active
2	Cat	cat@gmail.com	Active
3	Pig	pig@gmail.com	Active
4	Horse	horse@gmail.com	Disabled

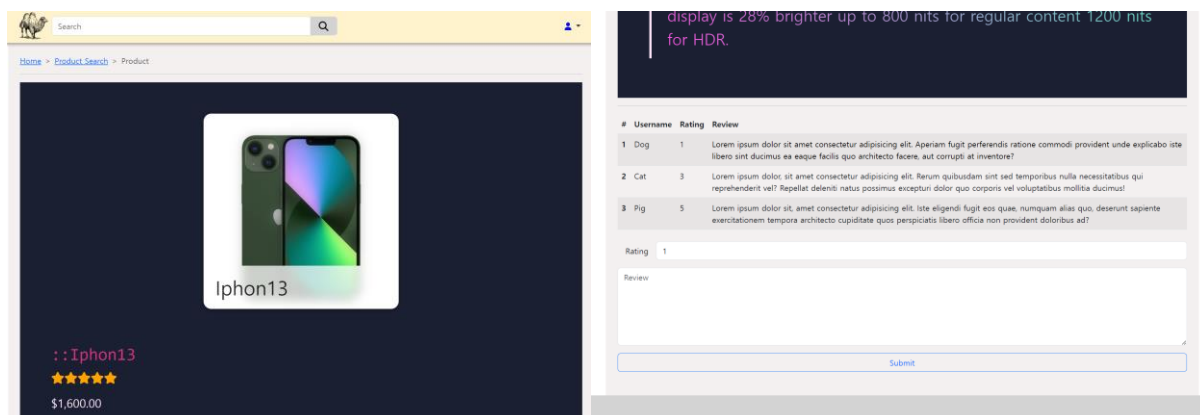

/page/productSearch.html

Page for searching product. Clicking more-opinion button will bring user /page/product.html where there is details of product and opinions about it.

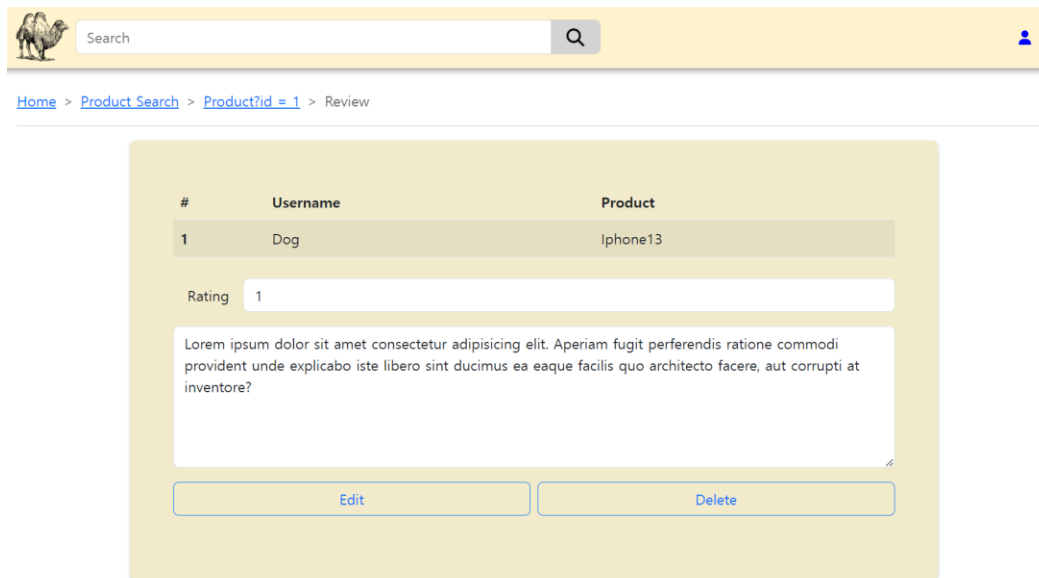

/page/product.html

Page for details of product and opinions of user. Clicking review posted by user themselves will bring user to page where user can edit or delete that post.

/page/opinion.html

Page for editing or deleting opinion

The screenshot shows a web interface for editing or deleting an opinion. At the top, there is a search bar with a magnifying glass icon and a user profile icon. Below the search bar is a breadcrumb trail: [Home](#) > [Product Search](#) > [Product?id = 1](#) > Review. The main content area is a light yellow box containing a table with the following data:

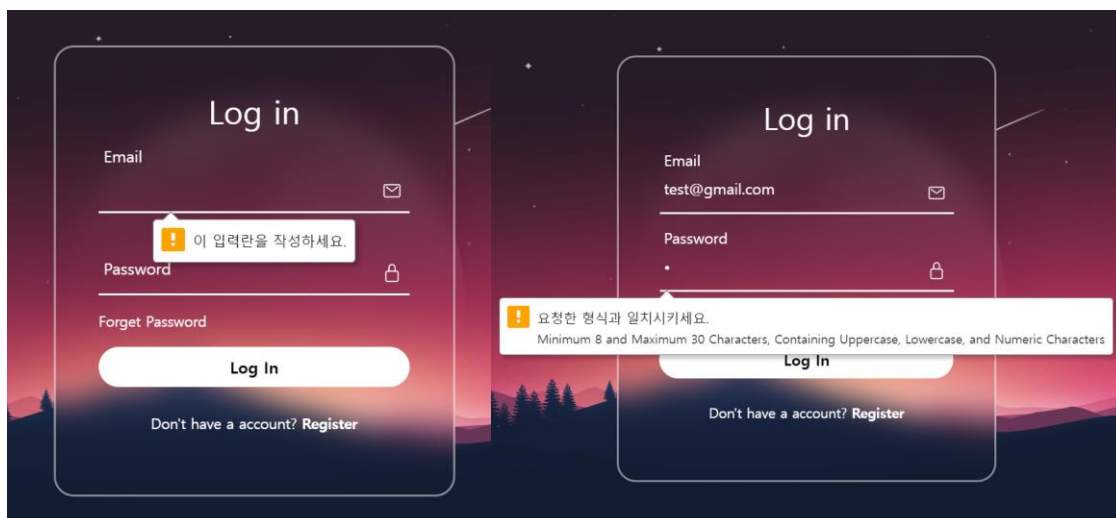

#	Username	Product
1	Dog	Iphone13

Below the table, there is a "Rating" section with a value of "1". Underneath the rating is a text area containing placeholder text: "Lorem ipsum dolor sit amet consectetur adipisicing elit. Aperiam fugit perferendis ratione commodi provident unde explicabo iste libero sint ducimus ea eaque facilis quo architecto facere, aut corrupti at inventore?". At the bottom of the text area are two buttons: "Edit" and "Delete".

Client-side validation

When submit form with invalid value or empty value, it warns user and shows the valid format.

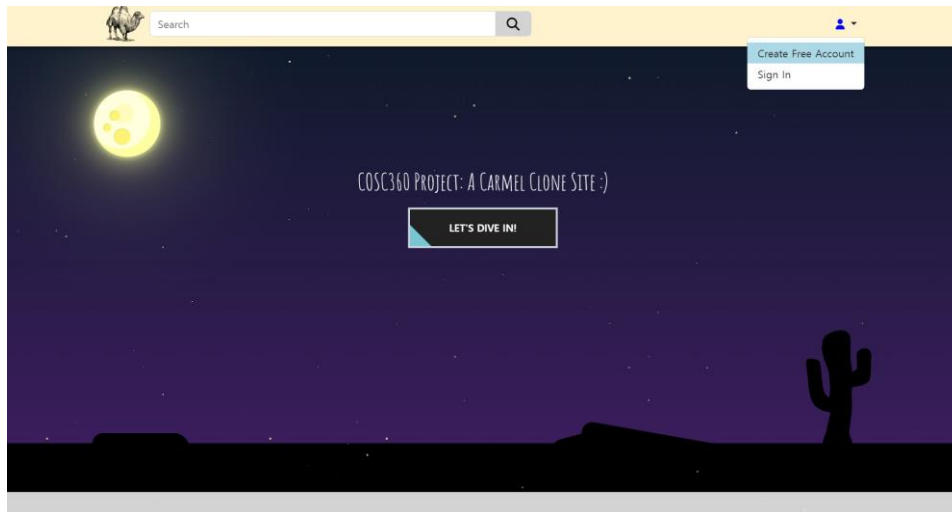

There is same feature for Sign up page.

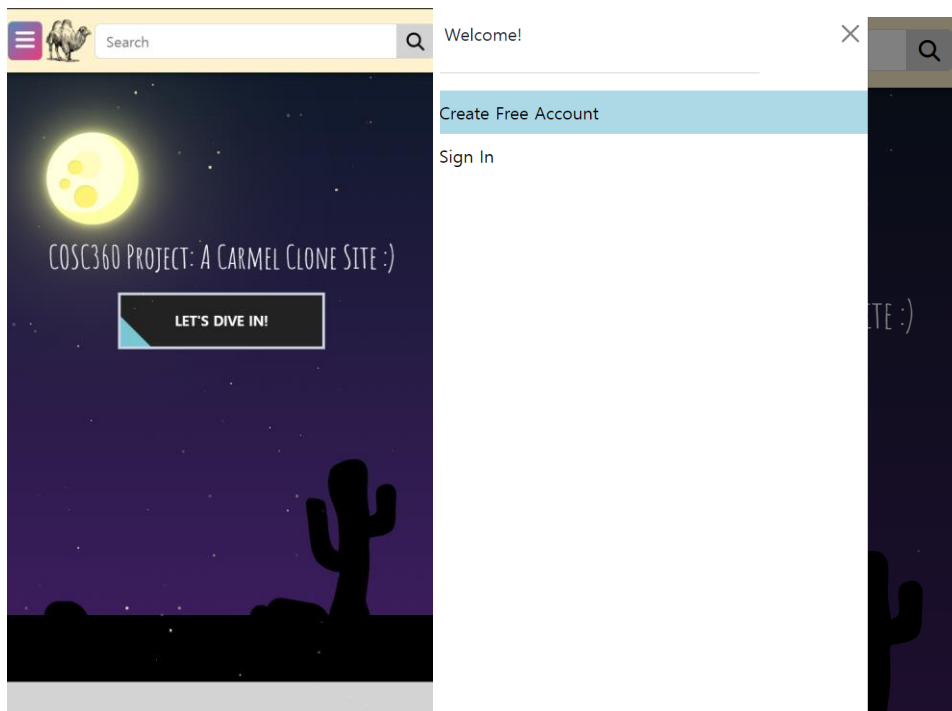

The image shows two side-by-side screenshots of a login form. Both forms have a title "Log in" and fields for "Email" and "Password". The left screenshot shows the form with empty fields and a warning message: "이 입력란을 작성하세요." (Please enter in this field). The right screenshot shows the form with the email "test@gmail.com" and a password field with a warning message: "요청한 형식과 일치시키세요. Minimum 8 and Maximum 30 Characters, Containing Uppercase, Lowercase, and Numeric Characters". Both forms have a "Log In" button and a link "Don't have an account? Register".
